

Flat Adjustable Tension Levers

**Stainless Steel, with Internal Thread /
with Threaded Stud**

SPECIFICATION

Types

- Type **D**: Straight lever
- Type **E**: Angled lever

Hub / Shaft

Stainless steel AISI 303
Matte shot-blasted

Insert

Stainless steel AISI 303

Cover

Plastic, polyvinyl chloride (PVC-U)
Light gray

Ball knob DIN 319 (see page 538)

Plastic, phenolic resin (PF)
Black, shiny finish

Safety circlip

Plastic, polyacetal (POM)

INFORMATION

The overall height of flat adjustable tension levers GN 125.5 is reduced to a minimum.

As all other adjustable levers, they are ideal whenever parts have to be clamped in a confined space, or a particular lever position is required. The threaded insert is connected with the hub via serrations which can be disengaged.

Pulling the lever, disengages the serrations and the lever can be swivelled to the ideal clamping position. On releasing the lever it will automatically re-engage.

ON REQUEST

- With threaded through hole

TECHNICAL INFORMATION

- Plastic Characteristics (see page A2)
- Stainless Steel Characteristics (see page A26)

* Complete with

- D** Straight lever
E Angled lever
