

Adjustable Tension Levers

Stainless Steel, with Internal Thread / with External Thread

SPECIFICATION

Type

- Type E: Angled lever

Hub / Shaft

Stainless steel AISI 303
Matte shot-blasted

Insert

Stainless steel AISI 303

Ball knobs DIN 319

Plastic, phenolic resin (PF)
Black, shiny finish

Safety circlip

Plastic, Polyacetal (POM)

INFORMATION

Adjustable tension levers GN 212.5 have proved to be ideal whenever parts have to be clamped in a confined space or a particular lever position is re-quired. The threaded insert is connected with the hub via serrations which can be disengaged. Pulling the lever, disengages the serrations and allowing it to be swivelled to the ideal clamping position. On releasing the lever it will automatically re-engage.

ON REQUEST

- Lever straight (90°)

TECHNICAL INFORMATION

- Strength Values of Screws (see page A20)
- Plastic Characteristics (see page A2)
- Stainless Steel Characteristics (see page A26)
