Parallel Mounting Clamps

Aluminum

SPECIFICATION

Mounting clamp
Aluminum
- Matte finish, tumbled **MT**
- Anodized, black **ELS**

Socket cap screws ISO 4762
Stainless steel

INFORMATION

In the standard version, the clamping screw is a socket cap screw with hexagonal socket ISO 4762. It can be replaced by a clamping kit GN 511 (see page 1893) (for article code, see table of dimensions).

ACCESSORY

- GN 511 Clamping Kits (see page 1893)
- GN 480.1 Retaining Rods / Retaining Tubes (see page 1904)

TECHNICAL INFORMATION

- Range of Mounting Clamps (see page 1876)
- ISO-Fundamental Tolerances (see page A21)
