

## Quick Release Toggle Nuts

### SPECIFICATION

Steel  
zinc plated, blue passivated  
Butt-welded-toogle

### INFORMATION

Quick release toggle nuts GN 6305.1 are used in such applications where the knob has to be completely removed after the releasing operation and refitted rapidly for re-clamping.  
Plug the toggle nut onto the threaded bolt at an oblique angle. During the clamping action, it engages into the threads of the bolt.

### ON REQUEST

- in Stainless Steel
