

## AEO (Authorized Economic Operator) Status

Dear Customer,

ELESA S.p.A. is pleased to inform you that it has received an AEOF (*Authorized Economic Operator Full* – customs simplifications and safety) certificate from the Customs Agency, effective as of 26/03/2014.

**AEO Certificate no. IT AEOF 14 0872**

The certificate is the recognition of its status of customs reliability and is valid throughout Europe. It is issued following a process involving the adaptation of internal procedures, as well as having received from the Italian Certification Authority a positive assessment of its regulatory requirements concerning customs compliance in light of its accounting records, financial solvency, and safety standards.

Additionally, Elesa Spa has been authorised for the customs clearance at domicile procedure, which allows goods to clear customs directly at the Elesa site.

With these achievements, Elesa Spa can now simplify import and export bureaucratic practices, rendering the international logistics chain more fluid, all to the advantage of the service we supply to our customers and distributors outside of Europe, thanks to:

- International recognition of AEOF reliability and safety status
- Streamlining of customs operations, document controls, and safety
- Reduction of border controls
- Priority processing of shipments
- Lower import costs of Elesa goods

Such advantages will increase as other foreign countries begin to sign agreements with the European Union to recognize these certificates - the United States, in fact, has already done so.

As it permits for superior service to be provided, for ELESA this certification is an important factor of our competitiveness, and it is with pride that we are able to guarantee it to you.
