

Subject: UPDATE - NOVEL CORONAVIRUS (2019-nCoV)

April 6th, 2020

Starting from the the Novel Coronavirus (COVID-19) emergency, Elesa S.p.A. and Otto Ganter GmbH & Co. KG had put in place rigorous measures to protect the health of their employees, customers and suppliers and at the same time to guarantee the usual service to its customers.

With the measures introduced by the Italian Government on March 22nd, 2020 Elesa voluntarily decided to suspend activities of its production departments and the logistics terminal in Monza from March 26th, to April 3rd, 2020. During this period, offices were operating in Smart Working mode.

From Monday April 6th, 2020, all Elesa activities will regularly resume, to offer customers the usual service, always respecting preventive measures to protect the health of its employees, customers and suppliers.

Whilst the position in Germany remains as of today, the Ganter plants in Furtwangen will remain operational as per the previous communications.

The Elesa+Ganter Subsidiaries, as well as the entire distribution network will continue their activities of sales and distribution in compliance with local government provisions of law. Of course, the situation may change according to the National directives. If this is the case, we will inform you accordingly.

If you have specific questions related to this subject, please contact Elesa and Ganter at info@elesa-ganter.com.
